Introduction	1
MATHILDE BOURRIER, NATHALIE BENDER AND CLAUDINE BURTON-JEANGROS	

PART I	
Setting the stage	19

1 The challenges of building pandemic response systems based on unique cases: 2003 SARS, 2009 A(H1N1) and 2014 Ebola epidemic	21
ANN KELLER	
2 The future strikes back: global public health crises and the rise of preparedness	52
LOÏS BASTIDE	

PART II	
Lessons learned from the A(H1N1) pandemic and 2014 Ebola virus disease: a multidisciplinary point of view	71
3 Comparing the 2009 A(H1N1) pandemic and 2014 Ebola virus disease: of viruses, surprises in outbreak responses and global health work	73
MATHILDE BOURRIER	

4	Epidemics and risk communication: why are lessons not learned?	105
	CLAUDINE BURTON-JEANGROS	
5	Emergency capabilities: deploying the WHO's communication in West Africa during the 2014 Ebola epidemic	126
	LOÏS BASTIDE	
6	The use of matrix structure in epidemic management	144
	ALEXANDRINE DUPRAS	
7	Shaping A(H1N1) pandemic response: money will follow	157
	NATHALIE BRENDER, DAVID MARADAN AND HÉLÈNE PASQUINI-DESCOMPS	
8	Financing the crisis: public expenditure on the A(H1N1) influenza pandemic in Switzerland, Japan and the United States	182
	HÉLÈNE PASQUINI-DESCOMPS, NATHALIE BRENDER AND DAVID MARADAN	
9	The organizational puzzle of the Global Health System: insights from high reliability organizations theory	207
	MATHILDE BOURRIER	
PART III		
	Complementing views: double standard in ethics and care	237
10	Scarcity in the midst of abundance: the case of the medical evacuation of the Cuban patient in Geneva, Switzerland	239
	AUDE PARFAITE	
11	Reaching out to Ebola victims: coercion, persuasion or an appeal for self-sacrifice?	255
	PHILIPPE CALAIN AND MARC PONCIN	
	Conclusion: global health revisited	276
	CLAUDINE BURTON-JEANGROS, MATHILDE BOURRIER AND NATHALIE BRENDER	
	<i>Index</i>	285

Contributors

Loïs Bastide is Assistant Professor of Sociology at the University of French Polynesia, and a research associate at the Institute for Sociological Research, University of Geneva.

Mathilde Bourrier is Professor of Sociology in the Department of Sociology, University of Geneva. She works on the social construction of safety, focusing on the conditions under which organizational reliability can be achieved and sustained. She is especially interested in organizational design and resources allocation during severe and challenging conditions in high-hazard organizations.

Nathalie Brender is Associate Professor of Risk Management, Corporate Finance and Accounting in the Geneva School of Business Administration, HES-SO University of Applied Sciences and Arts Western Switzerland. Her research in risk governance in health addresses the relationship between risk assessment and the management of the response.

Claudine Burton-Jeangros is Professor in Sociology at the University of Geneva. Her research in sociology of health and medicine covers health inequalities and meanings attached to risk.

Philippe Calain is a medical doctor specialized in infectious diseases and tropical medicine. He received a doctorate in biology in 1995. In 2006 he joined the headquarters of MSF Switzerland, where he is currently Director of Research at the Research Unit on Humanitarian Stakes and Practices (UREPH). His current areas of interest include humanitarian ethics, public health ethics, the governance of global health, and extractive industries.

Alexandrine Dupras has had varied professional experiences in the international development and humanitarian sectors. Before undertaking her current position with Oxfam in Jordan in early 2018, she worked for a year at the headquarters of the International Committee of the Red Cross in cooperation and capacity building.

Ann Keller is Associate Professor of Health Policy at the University of California, Berkeley School of Public Health. Keller studies the role of expertise in public decision-making, focusing on how expert systems are designed in the public sector and how expertise is maintained in contested political domains.

David Maradan is an economist specializing in cost-benefit and cost-effectiveness analysis. He is a lecturer at the Geneva School of Business Administration, HES-SO University of Applied Sciences and Arts Western Switzerland, the University of Fribourg and the Swiss Distance University.

Aude Parfaite is a research assistant at Geneva Canton Hospital (HUG) and a PhD candidate in sociology at the University of Geneva.

Hélène Pasquini-Descomps has over ten years' professional experience working in investment banking and asset management in Japan, the United States and Switzerland. She is also a lecturer in market and corporate finance.

Marc Poncin is a researcher and humanitarianism expert with Médecins Sans Frontières (MSF). He also served as Deputy Director General and Head of Programs of the Swiss branch of MSF.
