## Editors

**Sarah Dry** is a Research Officer at the STEPS Centre, Institute of Development Studies, where she focuses on epidemics. Her research interests include Victorian meteorology and government science, the history of 20th century medicine and global health policy. She received her PhD in History of Science from Cambridge University and has held an ESRC Postdoctoral Fellowship at the Centre for Analysis of Risk and Regulation, London School of Economics.

**Melissa Leach** is a Professorial Fellow at the Institute of Development Studies and Director of the STEPS Centre. She is a social anthropologist specializing in environmental, health and science–society issues, with long research experience in West Africa. Her research interests include social and institutional dimensions of environmental and technological change, and issues of knowledge, power and citizen engagement.

## Authors

**Gerald Bloom** is a physician and health systems analyst. He is a Fellow at the Institute of Development Studies, where he convenes the health and disease domain of the STEPS Centre. He has particular interests in health system transition in rapidly changing contexts.

**Jerker Edström** is a Fellow at the Institute of Development Studies, where he leads the HIV and Development programme. Prior to joining IDS he worked for the International HIV/AIDS Alliance, and has many years of research and practical experience with HIV programming in Africa and Asia.

**Barry S. Hewlett** is Professor of Anthropology at Washington State University, Vancouver. He received a PhD from the University of California, Santa Barbara in 1987 and has had appointments at Southern Oregon University, Tulane University and Oregon State University. He has conducted research

in central Africa since 1973 and is the author of *Intimate Fathers: The Nature and Context of Aka Pygmy Paternal Infant Care, Hunter-Gatherer Childhoods* (edited with Michael Lamb), *Ebola, Culture and Politics* (with Bonnie Hewlett) and 'Human behavior and cultural context in disease control', Special Issue of *Tropical Medicine and International Health* (edited with Joan Koss-Chioino).

**Hayley MacGregor** is a Fellow at the Institute of Development Studies. She is a medical doctor and social anthropologist whose areas of research include mental health, social protection and disability, human rights discourses and health citizenship, the regulation of and responses to medical technologies, and the effects of global health funding on local responses to HIV and AIDS in southern Africa.

**Erik Millstone** is a Professor based at Science and Technology Policy Research (SPRU), University of Sussex. He co-convenes the STEPS Centre's Food and Agriculture domain. He originally trained as a physicist and philosopher, but now works on science and public health policy. His interests include public and environmental health protection policies, the interactions between scientific and policy considerations in both risk assessment and risk management, BSE, GM crops and obesity policy.

**Paul Nightingale** is a Deputy Director of SPRU, Science and Technology Policy Research, University of Sussex. He is a visiting Professor of Corporate Strategy at Cass Business School (City University) and an Associate Fellow of the Open University's Innovation, Knowledge and Development centre. He is currently a UK editor of *Industrial and Corporate Change*, and was previously editor of *Research Policy*. He has published widely on innovation in bio-pharmaceuticals, financial services, capital goods use in service firms, financing of biotechnology, biosecurity, and the nature and use of knowledge.

**Ian Scoones** is a Professorial Fellow at the Institute of Development Studies, and Co-Director of the STEPS Centre. He originally trained as an ecologist but his research over many years has linked natural and social sciences, focusing on relationships between science and technology, local knowledge and livelihoods and the politics of agricultural, environment and development policy processes.

**Mariz Tadros** is a Fellow at the Institute of Development Studies. She obtained her doctorate degree from the International Development Centre, Queen Elizabeth House at the University of Oxford in 2004, and her MA

in 1999 from the American University in Cairo (AUC). She has worked as an assistant professor of political science at the American University in Cairo. She also worked for many years as a journalist for *Al-Ahram Weekly*, an English language newspaper covering women's rights, NGOs, human rights and poverty-related issues. Her research interests include aid for civil society promotion of democratization, gender and development in the Middle East, NGOs and civil society in the Arab world, and Islamist politics in Egypt and the region.
